Vasileios Spanakis-Misirlis

*A bridge between the Greek astronomers
and the public.*

2'science is a science communication project initiated and supported by early-career Greek astrophysicists. This project is based on the simple idea of writing short articles with an approximate reading time of two minutes.

Who

The team of 2'science consists of a group of 12 young researchers and 25 guests have contributed so far.

How

- Popular science articles about physics and astrophysics (#44)
- "Ask an Expert" (#36)
- Fun facts(#50)
- Public talks
- Escape Zoom
- A Radio Telescope for All: PICTOR
- AstroLab for teenagers

Future

- In-person activities around Greece
- Interviews with Greek astronomers
- Presentations of the history of Greek Astronomy
- Podcast(s) with discussion
- Educational videos
- Dedicated workshops on specific subjects
- Educational activities for students
- Astronomers' Point of contact.
